## Definitions

**Baseline Allowance** - A quantity of electricity or gas allocated by the CPUC for residential customers based on a percentage of average residential consumption and varying based on type of space heating, type of water heating, season, climatic zone and number of days in the billing period.

**California Climate Credit** - Part of California's efforts to fight climate change, the credit results from fees charged by the state to reduce carbon pollution and increase use of cleaner forms of energy. These fees are returned to customers as savings on their electric bill. Households will receive the credit twice a year, and small businesses will receive it monthly. Learn how you can use these savings to further reduce your energy costs and help fight climate change at [EnergyUpgradeCA.org/credit](http://EnergyUpgradeCA.org/credit).

**Competition Transition Charge (CTC)** - Through this charge, SDGE recovers costs for power plants and longterm power contracts approved by state regulators that have been made uneconomic by the shift to competition.

**City of San Diego Franchise Fee Differential** - A fee charged to SDGE by the City of San Diego for the rights to operate within city streets.

**Climate Zone** - The CPUC established four Climatic Zones in California, based on annual average temperatures.

**Delivery** - Charges for the costs of owning, operating, and maintaining the transmission and distribution facilities to deliver power to customers.

**Distribution** - This line reflects charges to distribute power to customers. It includes power lines, poles, transformers, repair crews and emergency services.

**DWR Charges** - The Department of Water Resources (DWR) Bond Charge pays for bonds issued by DWR to cover the costs of purchasing power during the electricity crisis. All DWR charges, including the Cost Responsibility Surcharge component of DWR charges, are owned by DWR and not SDGE. SDGE collects charges for DWR as an agent of DWR.

**Electricity Generation Charge** - This charge is for the electricity you use and includes charges for the energy provided by both SDGE and DWR. Electricity from DWR is owned by DWR, not SDGE. If you purchase electricity from another supplier or buy electricity through SDGE using hourly pricing, this charge appears only for informational purposes and will be offset by a credit.

**Franchise Fees for Electric Energy Supplied by Others** - This charge pays cities for the right to have transmission and distribution equipment (such as poles and wires) on city streets. This charge collects the franchise fee on the electricity purchased for you by DWR. The franchise fee on the electricity provided to you by SDGE is included in the SDGE Electricity Generation Charge.

**kWh (kilowatt hour)** - A common unit to measure electric energy consumption. A kWh equals 1,000 watts of electric power consumed for one hour of time.

**Nuclear Decommissioning** - This charge pays for the retirement of nuclear power plants.

**Public Purpose Programs** - This charge reflects the costs of certain state-mandated programs (such as low-income and energy efficiency programs) and included the rate subsidies required by legislation and applied to residential usage up to 130% of Baseline allowances. The associated rate capping subsidy amounts applicable to usage up to 130% of Baseline allowances are tracked and charged by means of adders to residential energy rates for usage in excess of 130% of Baseline allowances, as reflected in the TRAC component.

**Reliability Services (RS)** - The Independent System Operator is required to ensure adequate generation to maintain electric system reliability. This means having enough generating facilities available to meet the demand for electricity at all times. The costs associated with this are passed on to SDGE customers.

**State Regulatory Fee** - Charged to all utility users to pay for the California Public Utilities Commission (CPUC) operations.

**State Surcharge Tax** - Collected by the State of California for the conservation and development of energy resources in the state.

**Therm** - Unit of measurement for billing purposes, nominally 100,000 Btu.

**Therm Multiplier** - A therm multiplier is used to convert the heat content in natural gas (gas measured through the meter in cubic feet) into a billable unit, known as a therm. Cubic feet x therm multiplier = therms.

**Transmission** - This charge pays for the delivery of high-voltage electricity from power plants to distribution points near your home or business. It includes the cost of high-voltage power lines and towers, as well as monitoring and control equipment.

## SDGE Policies and Notices

**Electronic Check Processing** - When you pay your bill by check, you authorize us to electronically process your payment. If your check is processed electronically, your checking account may be debited on the same day we receive the check. Your check will not be returned by your bank, however, the transaction will appear on your bank statement. *If you do not wish to participate in this program, please have your account number ready and call 1-866-534-5152.*

**Rates & Rules** - SDGE's rate schedules and rules, on file and approved by the CPUC, are available on the Internet at [www.sdge.com](http://www.sdge.com). Copies of applicable tariffs may also be obtained by calling 1-800-411-SDGE (7343) or visiting any company bill payment office.

**Pay Before Date / Disconnection Policy** - Your SDGE bill is due and payable upon presentation and is past due if not paid within 19 days of the date mailed. If your payment has not been received by the "Due Date" shown on your bill, your SDGE service is subject to disconnection, after proper notice has been provided. If your service is disconnected for non-payment, there will be additional service charges and you will be required to pay all past due SDGE amounts before service is restored. Your SDGE service could also be disconnected if the information provided on your application for service is false, incomplete or inaccurate. SDGE will disconnect your services only for non-payment of those charges owed SDGE.

If you are unable to pay your SDGE bill in full due to a temporary financial hardship or due to a serious illness in the household, you need to call SDGE before the expiration of this notice. Employees, including multilingual staff, are available to assist with payment arrangements.

If SDGE fails to offer you payment arrangements, you may write to the Consumer Affairs Branch of the California Public Utilities Commission (CPUC), State Office Building, 505 Van Ness Avenue, room 2003, San Francisco, CA 94102, phone: 800-649-7570, email: [consumer-affairs@cpuc.ca.gov](mailto:consumer-affairs@cpuc.ca.gov), prior to disconnection of your SDGE service. The Consumer Affairs Branch will review the complaint and issue its proposed resolution to you and SDGE. If you are not satisfied, you may appeal the proposed resolution by filing a formal complaint. A more detailed explanation of disconnection policies, including your rights as an SDGE customer, may be obtained by calling 1-800-411-SDGE (7343), or e-mail: [info@sdge.com](mailto:info@sdge.com), 24 hours a day.

**Disputed Bills** - If you dispute the SDGE charges on your bill, which may include electric energy charges that reflect electricity provided by the State of California Department of Water Resources (DWR), please request an explanation from SDGE within five days. If you still believe you have been billed incorrectly, the full amount of the SDGE charges and DWR charges on the bill should be deposited with the California Public Utilities Commission, State Office Building, 505 Van Ness Avenue, Room 2003, San

Francisco, CA 94102, phone: 800-649-7570, email: [consumer-affairs@cpuc.ca.gov](mailto:consumer-affairs@cpuc.ca.gov), within 15 days of the mailing date of a past due notice for residential customers or seven days for non-residential customers, to avoid disconnection of your SDGE service. Make the remittance payable to the CPUC, not SDGE.

You may, in lieu of depositing the full amount of disputed bills with the CPUC, agree to an installment plan with SDGE. A complaint may still be filed with the CPUC by stating your claim in writing and by providing supporting documentation.

The CPUC will not accept deposits when the dispute appears to be over matters that do not directly relate to the accuracy of the bill. Such matters include the quality of the utility's service, general level of rates, pending rate applications, and sources of fuel that are used to generate power.

Failure to make the deposit to the CPUC or payment arrangements with SDGE by the expiration date of a past due notice, may result in the disconnection of your SDGE service.

**Re-Establishment of Credit / Deposit** - If you pay your SDGE bill after the expiration date of a past due notice, you may be required to re-establish your credit by paying a deposit equal to twice the highest monthly SDGE amount at your address.
